ADDITION TO THE SPECIFICATIONS

Division 2 – Submission of Tender

As a result of the COVID-19 pandemic, the City of Saint John has implemented adjustments to the tender submission procedure as follows:

Section 2.6.01 Location of Tender Box for the Submission of Tender

175 Rothesay Avenue, Saint John, New Brunswick

The tender box will be available at the main building entrance for submission of tenders by the Tenderer between the hours of 9:30 am and 2:30 pm only on the above tender closing date. Tenderers shall maintain physical distancing from others when depositing their tender in the tender box.

There will not be a public tender opening. Registered Bidders will receive an email invitation to view the Tender Opening using Microsoft Teams software. Email invitations will be sent to the address provided on the Official Bidder’s List. The Tender Opening Committee will conduct the evaluation of the tenders and Compliant tenders will be included in the summary of bids on the City’s Tenders & Proposals website within 1 business day following the tender closing.

Division 3 – Particular Specifications

Section 3.1 – Additional Specifications for this Project

Replace the following Sections with:

3.1.1 Work Description

The work consists generally of the design, preparation, supply and installation of structural sewer pipe lining in the following locations:

- **Young Street** (Sand Cove Road to Civic # 391)
Rehabilitation of 130 m of 200 mm diameter sanitary sewer (from EX MH 51 to EX MH 54 as shown on Drawing S210-006); and
- **Somerset Street** (Civic 520 to Civic #560)
Rehabilitation of 156 m of 525 mm diameter sanitary sewer (from EX MH 62 to EX MH 65) as shown on the Drawing S210-006).

The Work shall be completed in accordance with the City of Saint John, 2020 General Specifications.

3.1.4 Traffic Direction and Controls

The Contractor shall provide the City within seven (7) calendar days of award of the Contract, a traffic control plan that includes neat sketches and plans of all traffic control related components for the City's review. No construction will be permitted to commence until this plan has been approved by the City.

It shall be the contractor's responsibility to ensure that a minimum of one lane of traffic in both directions is available at all times for the duration of the project. All traffic control, including flag persons, temporary traffic control lights, and/or signage, shall be incidental to the work.

With respect to opening manholes during the tendering period for an inspection, the Tenderer must contact the City (Project Engineer) in advance to inform the Engineer of the proposed investigation prior to completing any manhole inspections for the purpose of by-pass pumping. For the purposes of said investigation work, the Tenderer shall have in place suitable traffic control measures prior to working on/occupying any City street. ***Please see the below release and indemnification.**

3.1.5 Construction Schedule

The Work on Somerset Street shall be completed before the work on Young Street, unless otherwise directed by the Engineer.

The work on Young Street noted on the Drawing 'Work by Others' is complete.

The Contractor shall submit a detailed Work Plan in an acceptable format within seven (7) calendar days of award of the Contract. The schedule shall show durations of all major work activities and milestones for completion.

A pre-construction meeting will be arranged by the Engineer to discuss with the Contractor the schedule of work, scope of work, work co-ordination, specific construction procedures, traffic control and other related issues.

***By signing the Addendum, you acknowledge and agree you hereby accept any and all liability and hereby release and indemnify the City of Saint John from any claims as related to the pre-bid investigative work if undertaken by bidders.**

Note: Signed copy of the addendum **must** be enclosed in the tender documents, according to the Instructions to Tenderers and Tendering Procedures in Division 2 of the Contract Specifications.
