

The City of Saint John

PUBLIC INFORMATION SESSION

CONTRACT 2022-03 PITT STREET (ST. JAMES STREET TO BROAD STREET) AND BRITAIN STREET (PITT STREET TO WENTWORTH STREET) -

WATER, SANITARY AND STORM SEWER RENEWAL AND STREET RECONSTRUCTION

The City of Saint John will be installing new infrastructure on Pitt Street from St. James Street to Broad Street and on Britain Street from Pitt Street to Wentworth Street. The existing watermains and sanitary sewers will be renewed, new storm sewers will be installed and existing services to each building up to the property lines will be renewed. New concrete curb and sidewalk will be installed, and full street reconstruction will be undertaken, including the addition of grass medians and trees.

This project is part of the City's on-going commitment to continually improve its infrastructure and is included in approved City of Saint John Water & Sewerage Utility Fund and General Fund Capital Programs. This project is partially funded by the Integrated Bilateral Funding Program.

The project is anticipated to begin in mid-April 2023 and is expected to be completed by October 2023. Prior to construction, another notice will be distributed to inform residents and business owners of the actual construction start date. Although there will be water interruptions and delays in traffic, it is our intent to keep these inconveniences to a minimum.

Representatives from the City of Saint John will be available to answer questions related to the project. The public is invited to drop in anytime during the following periods to attend an information session for this project:

- Date:** **Wednesday, March 29, 2023**
- Location:** **Saint John Vineyard
204 Carmarthen Street**
- Time:** **2:00 pm – 4:00 pm and 6:00 pm – 8:00 pm**

For further information about this project contact the City of Saint John at (506) 658-4455.
